be Pinned

Conduit Specification for Access Control and Intrusion Systems:

1. **Conduit Type:**
 - Use **Electrical Metallic Tubing (EMT)** or **Rigid Metal Conduit (RMC)** for indoor installations.
2. **Conduit Size:**
 - Minimum conduit size: **¾ inch** for single runs.
3. **Conduit Routing:**
 - Conceal conduit within walls, ceilings, or floors where possible.
 - Avoid sharp bends; use long-radius elbows.
 - Maintain separation from high-voltage power lines (minimum 12 inches).
4. **Conduit Termination:**
 - Terminate with **bushings** or **grommets** to protect cable sheathing.
 - Use **pull boxes** or **junction boxes** at regular intervals and at changes in direction(i.e. every 30FT).
5. **Pull Strings:**
 - Install **pull strings** in all conduits .
6. **Conduit Labeling:**
 - Label all conduits at both ends with destination and purpose (e.g., “Access Control – Door 1”).
7. **Sealing and Firestopping:**
 - Seal all conduit penetrations through fire-rated walls and floors with **UL-listed firestop systems**.
8. **Grounding:**
 - Ensure all metallic conduits are properly **bonded and grounded**.
9. **Environmental Considerations:**
 - Use **corrosion-resistant** conduit in damp or corrosive environments.
10. **Code Compliance:**
 - All conduit installations must comply with **Canadian Electrical Code** and local building codes.
11. **Coordination:**
 - Coordinate conduit paths with other trades to avoid conflicts.
12. **Automatic Door Operator (ADO)-This is not Part of New Age Scope:**
 - For automatic door operators, a ¾” conduit must be installed to supply power.
 - For automatic door operators, a ¾” conduit must be installed to Integrate with Access control.
 - Power should be sourced from a dedicated circuit breaker identified in the Citect system.
 - Ensure the conduit is properly secured and complies with the Ontario Electrical Safety Code (OESC) requirements for commercial installations.

A green light – If the green light is on this means the outlet is working as intended, and it is providing the necessary protection.

A red light – A red light means that there is a problem with the device. Further investigation needs to be carried out.

No lights – If neither red nor green light is flashing, this means that no power is reaching the outlet or that the outlet may be tripped.

AXIS Surveillance

24 × AXIS M4218-LV

Featuring WDR and OptimizedIR, this compact and discreet dome delivers great image quality—day and night, even in low light. A deep learning processing unit (DLPU) lets you take advantage of intelligent analytics based on deep learning on the edge. Designed to blend into any environment, it can be repainted and offers a range of accessories for discreet monitoring. Plus, it features an HDMI port and the flexibility to add audio and I/O connectivity using AXIS T61 Series. Furthermore, Axis Edge Vault provides a hardware-based cybersecurity platform that safeguards the device.

[HDTV 4K](#) | [200mW](#) | [Built-in IR](#) | [Audio support](#) | [Vandal resistant](#)

AXIS M4318-PLVE

With a 12 MP sensor, this discreet mini dome offers excellent image quality and a complete 180° or 360° overview. Featuring a stereographic lens and Sharpdome 360, it delivers greater sharpness at the edges of the image. Built-in IR illumination with individually controllable LEDs ensures clear, reflection-free footage and excellent image quality even in low light or complete darkness. A deep learning processing unit enables unique opportunities for analytics based on deep learning. Plus, AXIS Object Analytics can detect and classify humans, vehicles, and types of vehicles. Furthermore, Axis Edge Vault protects your Axis device ID and simplifies authorization of Axis devices on your network.

[HDTV 1080p / 5 megapixel](#) | [200mW](#) | [Lightfinder](#) | [Forensic WDR](#) | [Built-in IR](#) | [Outdoor ready](#)

6 × AXIS M4327-P

AXIS M4327-P can deliver 360° or 180° panoramic views at up to 30 fps with no blind spots. The camera can stream up to four individual view areas simultaneously with support for digital PTZ. Built on ARTPEC-6, it offers powerful artificial intelligence and deep learning analytics on the edge. Plus, thanks to AXIS Object Analytics, it can accurately detect and classify moving objects for more effective monitoring. The camera is delivered factory-fused and features digital roll functionality for easy installation. Furthermore, it's compact, discreet, and repaintable to blend in with any surroundings.

[HDTV 1080p / 5 megapixel](#) | [200mW](#) | [Lightfinder](#) | [Forensic WDR](#) | [Audio support](#)

2 × AXIS P3737-PL

This multidirectional camera offers four channels with 5 MP per channel to deliver excellent overviews and detailed coverage. It includes 360° IR illumination for clear, reflection-free footage and excellent image quality even in low light or complete darkness. This flexible camera offers various mounting options. For instance, it can be recessed mounted for discreet surveillance or mounted in ceilings for complete 360° coverage. With highly efficient power consumption, it ensures lower operating costs. It also supports powerful analytics based on deep learning. Furthermore, Axis Edge Vault, a hardware-based cybersecurity platform, guarantees the device's integrity and protects it from unauthorized access.

[HDTV 4K / 4 megapixel](#) | [200mW](#) | [Lightfinder](#) | [Forensic WDR](#) | [Built-in IR](#) | [Outdoor ready](#)

15 × AXIS M2036-LE

Ideal for tough environments and rough weather, AXIS M2036-LE delivers Quad HD 1440p/4 MP. With a deep learning processing unit, it enables unique opportunities for analytics based on deep learning on the edge. AXIS Object Analytics offers detection and classification of humans, vehicles, and types of vehicles. And, Axis Edge Vault protects your Axis device ID and simplifies authorization of Axis devices on your network. This HDR-rated camera offers flexible and cost-efficient installation including support for PoE. Edge-to-edge technology allows for smart pairing with Axis Speakers. Plus, a spacious, sealed back box ensures secure cable management.

[HDTV 1080p / 4 megapixel](#) | [200mW](#) | [Lightfinder](#) | [Built-in IR](#) | [Outdoor ready](#) | [Audio support](#)

2 × AXIS P1467-LE

Based on ARTPEC-6, AXIS P1467-LE delivers excellent image quality in 5 MP. It includes a deep learning processing unit enabling advanced features and powerful analytics based on deep learning on the edge. With AXIS Object Analytics preinstalled, it offers detection and classification of humans, vehicles, and types of vehicles. This IP66/IP67, NEMA 4X, and IK10-rated camera can withstand winds up to 50 m/s. Lightfinder 2.0, Forensic WDR, and OptimizedIR ensure sharp, detailed images under any light conditions. Furthermore, it includes Axis Edge Vault to protect your Axis device ID and simplify authorization of Axis products on your network.

[3 megapixel](#) | [200mW](#) | [Lightfinder](#) | [Forensic WDR](#) | [Built-in IR](#) | [Outdoor ready](#)

3 × AXIS Q1808-LE

With 4K and an ultra-high light sensitive 4/3" sensor, this powerful camera delivers exceptional low-light performance and less noise even at great distances. It's available with a choice of lenses: a wide lens for great coverage in open areas and a tele lens for surveillance from a distance. A deep learning processing unit enables more processing power to run advanced features and powerful analytics on the edge. And, with PoE-out you can connect and power other devices without any additional cabling. Furthermore, this robust, outdoor-ready camera features Axis Edge Vault to safeguard the device and protect sensitive information from unauthorized access.

AXIS 18307-VE

AXIS 18307-VE offers high-quality two-way video for enhanced communication. A fully featured 4K camera delivers outstanding details and the screen's background and buttons can be customized. Robust and vandal-resistant, it offers flexible installation and can be mounted on walls, poles, recessed, or using a conduit mount. It integrates seamlessly with your VMS and supports SIP as well as open programming interfaces including VAPIX and ONVIF. Additionally, the integrated access control reader (RFID) makes it easy to integrate with other access control systems. Furthermore, Axis Edge Vault, a hardware-based cybersecurity platform, safeguards the device and offers FIPS 140-3 Level 3 certified secure key storage.

AXIS T8508 PoE+ Network Switch

AXIS T8508 PoE+ Network Switch is an 8-port managed Gigabit switch with a compact, fan-less design for installation in noise sensitive environments or to be used as an edge switch. AXIS T8508 is a perfect complement to Axis' recorders to further simplify setup and installation of surveillance systems. The intuitive administrator interface offers a graphic topology for easy overview of all devices in the system with information about connected devices and status. The high PoE power output allows for connection of up to 8 PoE cameras.

3 × AXIS T8516 PoE+ Network Switch

AXIS T8516 PoE+ Network Switch is an easy to install 16-port managed Gigabit switch - a perfect complement to Axis' recorders to further simplify setup and installation of surveillance systems. AXIS T8516 comes with an integrated DHCP server for automatic assignment of IP addresses and discovery of connected Axis devices. The intuitive administrator interface offers a graphic topology for easy overview of all devices in the system with information about connected devices and status. The high PoE power output allows for connection of up to 16 PoE cameras.

AXIS T8524 PoE+ Network Switch

AXIS T8524 PoE+ Network Switch is an easy to install 24-port managed Gigabit switch - a perfect complement to Axis' recorders to further simplify setup and installation of surveillance systems. AXIS T8524 comes with an integrated DHCP server for automatic assignment of IP addresses and discovery of connected Axis devices. The intuitive administrator interface offers a graphic topology for easy overview of all devices in the system with information about connected devices and status. The high PoE power output allows for connection of up to 24 PoE cameras.

2 × AXIS C1310-E Mk II

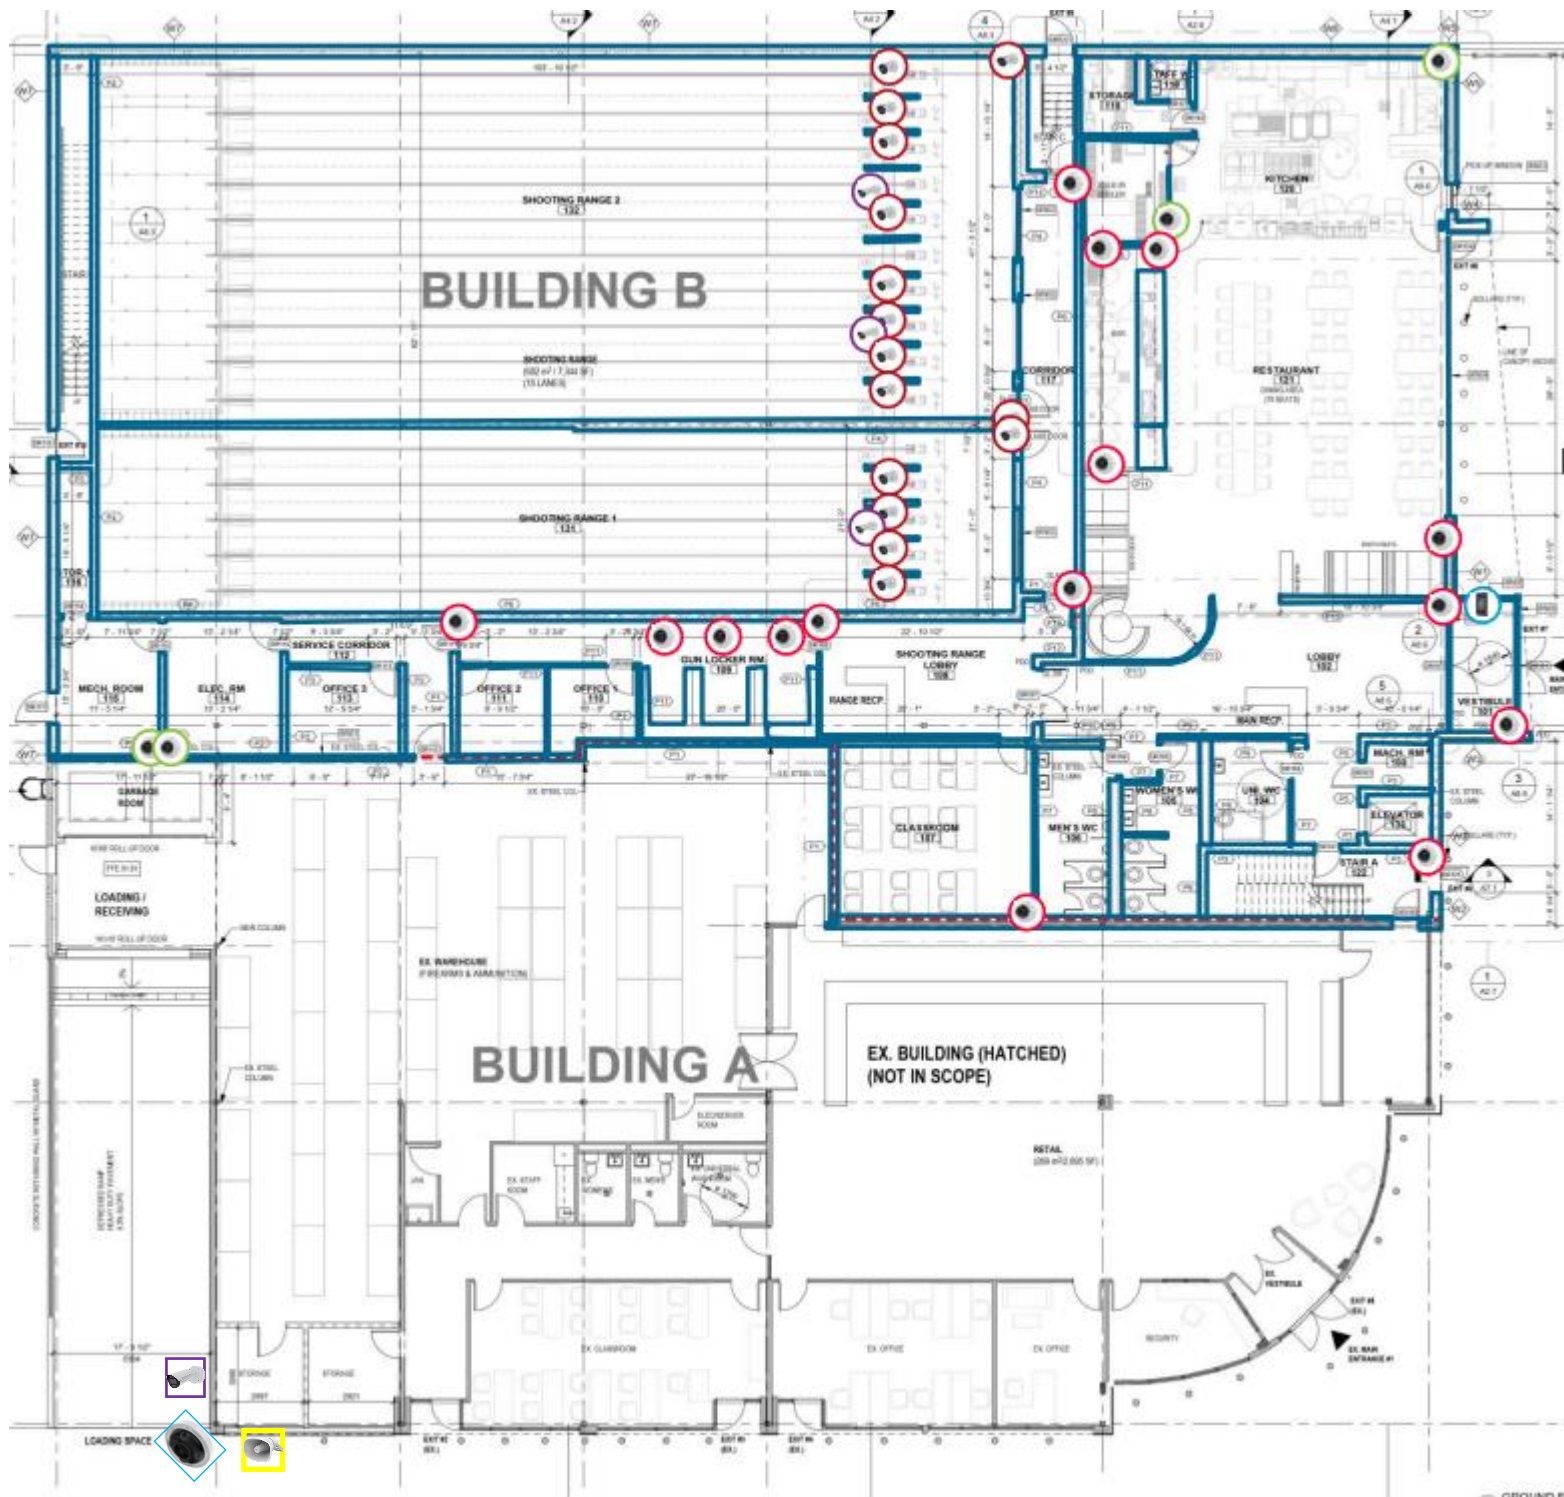

AXIS C1310-E Mk II Network Horn Speaker is perfect for outdoor environments in most climates. It allows users to remotely prevent unwanted activities, to deliver instructions during an emergency or to make general voice messages. Built-in memory supports pre-recorded messages, or security personal can respond to notifications with live speak. Open standards support easy integration with network video, access control, analytics, and VoIP (supporting SIP). Digital signal processing (DSP) ensures clear sound. The built-in microphone enables remote health testing and 2-way communication. Furthermore, the embedded audio management software supports user, content, zone, and scheduling management.
