PROJECT: NEW TWO STOREY RESIDENTIAL BUILDING:
CANNINGTON AFFORDABLE HOUSING FOR SENIORS
100 McKay Street, Cannington, Ontario

PROJECT NO: 16-16

SUBJECT: RFI NO: 8

DATE: August 20, 2018

Area/Description/Subject:

Electrical

Reference Drawings/Specification No:

Electrical Drawings/Specifications

Information Requested:

In the spec for the access control it mentions a card access system for each suite but doesn't indicate anything on the electrical drawings.

The spec also references two companies, we reached out to both and neither are in business. We're not having much success finding other companies interested in quoting this portion of work. Could you forward this on to the consultant for clarification?

Responses:

Clarification: The access control system is for the exterior doors only and does not include the suite entrances.

Acceptable access control companies:

-Keyscan Access Control: 905-430-7226

-ADT

-Chubb Edwards
